Alpaca head collars and lead ropes also available in a variety of colours.

## Other Fleeces and Animal Coats

Sheep Wool is also processed at the same price as Alpaca. Llama and Guanaco Fleece will be processed from £50.00 per kilo. We have also successfully spun Dog fibre, including Tibetan Mastiff at £100 per kilo. Please enquire for current specific rates.

**All prices are subject to VAT charged at 17.5%**

## Please Note

- Fleeces should be clean and free of moth infestation, faeces and large amounts of straw/debris.
- It is in your interest to ensure that fleeces are clean, this will mean more end product.
- Wastage rates vary enormously due to the quality of fibre and the state that it is delivered to us: more vegetation and contamination equals more loss.
- Average yields are 50 to 70% of weight inwards, however some fleeces that are coarse and/or dirty may only produce 50%.
- Please inform us if there is more than one year's growth of fleece this makes a difference to how we process the fleece.
- Fleece should be sent in clean sealed bags and marked with the animals details / herd details and what you wish to be the end products etc.
- There will be an additional cost of £25 per fleece for cleaning where this has not been done in a reasonable and satisfactory manner. Fleeces infested with moths will be returned to the customer at their own expense or destroyed on site with the customer's permission.
- Delivery costs of yarn to be paid by customer. We have a contract with Parcelforce at very good rates.
- Payment for services provided must be cleared before goods dispatched. Payment by card or cheque available.
